

The scale of measurement of accomplishment at the UFRJ is represented by notes ranging from 0 (zero) to 10 (ten), being rounded up to the nearest value with one decimal place.

The student's approval is represented by a final grade equivalent or higher than 5,0 (five), and frequency of attendance equivalent or higher than 75%.

The final grade defined by the item above means a numerical value that expresses the student's accomplishment along the academic semester, generated by the result of tests, essays and partial or final exams that may exist, or any other means of evaluation.

Also, at the UFRJ, 1 credit is equivalent to 15 class hours, and 1 ECTS is roughly equivalent to 25-30 hours of study.
